Section Summer test

Make sure validation is coded appropriately:

label for="input"  
input id="input" aria-describedby="valid\_message"  
div id="valid\_message" (the checkmark itself is insufficient)

If the parsing is going to happen on the client, or the results are going to be retrieved async  
- notify the screen reader user that something has happened. Can add aria-live to the block below, or pass the focus to it

Your file is correct!

If this is the right file you want to upload  
click confirm
